

Your team knows the work. Help them say it well.

Eight weeks of live speaking practice for the people who speak to your customers. Everyone is scored at the start and the end, and you get one report showing the movement.

THE PROGRAMME

- 4 sessions × 90 minutes, every fortnight for 8 weeks
- A closed group of 16 to 20, so everyone actually speaks
- Built around your team's real calls, not a generic course
- Live and online

WHAT YOU GET

- Each person filmed and scored in week one
- Scored again at the end, on the same six skills
- One manager report showing the movement
- Individual feedback goes to the individual

The six things we score

Structure	Leads with the answer, then supports it	Listening	Confirms understanding first, then answers precisely
Clarity	Plain words, short sentences, no unexplained jargon	Presence	Steady and warm, does not hedge
Pace and pauses	Varies pace, uses silence before the point	Handling pushback	Acknowledges, reframes, holds position

What we rehearse

The price objection · the renewal call · the angry customer · the demo where the questions lose the deal · the meeting where your best engineer says nothing · the new hire who can't explain the product.

FOUNDING PILOT · FIRST 3 COMPANIES

₹12,000 + GST

- Two live sessions with your team
- Baseline and end score for every person
- One manager report

FULL PROGRAMME · UP TO 20 PEOPLE
